

**NUMERICAL INDEX — DIVISION 190**  
**OPERATIONS CENTERS AND SUPPORT SYSTEMS**  
**OPERATION, MAINTENANCE, AND ADMINISTRATION**

**1. GENERAL**

- 1.01** This section provides an index of System-issued sections in Division 190.
- 1.02** A bullet (●) indicates an item that has been added or changed since the previous issue of the index.
- 1.03** A square (□) indicates a canceled item. Information relating to the cancellation, if necessary, will be shown in a note following the item. Canceled items and related notes will be deleted upon reissue of the index.
- 1.04** A star (★) indicates an item rated AT&T SPCS which contains trade secret information and which is available to authorized addressees only.
- 1.05** A solid triangle (▲) indicates a Task Oriented Practice (TOP). These practices, because of their limited need, will not be distributed on standing order except through coded distribution. Additional copies may be obtained by placing regular (one-time) orders.
- 1.06** A heart (♥) indicates a new or reissued item which, because of its limited need, will not be distributed on standing order except through coded distribution. Additional copies may be obtained by placing regular (one-time) orders.
- 1.07** A spade (♠) indicates an item not on microfiche. This index indicates the latest issue for hard-copy BSPs. In some cases, the microfiche BSP will reflect the next higher issue as a result of the reduced distribution interval.
- 1.08** "Add" is the abbreviation for Addendum, and "App" is the abbreviation for Appendix.

**2. LAYERS**

- 2.01** For Network Operations Methods Practices this division is arranged in layers and sublayers as follows:

- 190-000 Indexes
  - 101 CMS (Circuit Maintenance System 3A)
  - 102 CAROT 2/Generic 2 (Centralized Automatic Reporting on Trunks)
  - 103 CAROT 2/Generic 3 (Centralized Automatic Reporting on Trunks)
  - 105 ATA (Automatic Trouble Analysis)
  - 106 MDT (Maintenance Data Transmitter)
  - 107 Programmable Scanner/Distributor
  - 110) No. 2 SCCS (No. 2 Switching Control Center System)
  - 129)
  - 130 SCC (Switching Control Centers)
  - 200 TCAS (T Carrier Administration System)
  - 201 Alarm Centers
  - 202 FMAC (Facility Maintenance and Administration Center)
  - 205 SCOTS (Surveillance and Control of Transmission Systems)
  - 210 TASC (Telecommunications Alarm Surveillance and Control System)
  - 220 RMMS (Regional Maintenance Management System)
  - 300 RBCS (Record Base Coordination System)
  - 305 COMMS (Central Office Maintenance Management System)
  - 306 SCANS (Software Change Administration and Notification System)
  - 401 NSC (Network Service Center)
  - 402) LSU (Local Storage Unit) and CMDR (Centralized Message Detail Recorder)
  - 403)
  - 510 EADAS (Engineering and Administrative Data Acquisition System)
  - 511 EADAS 1A (Engineering and Administrative Data Acquisition System — 1A)

- 512 EADAS/NORGEN (Engineering and Administrative Data Acquisition — Network Operations Report Generator)
- 514 SONDS (Small Office Network Data System)
- 520 COSMOS (Computer System for Main Frame Operators)
- 521 RMAP (Remote Memory Administration Position)
- 540 EADAS/NM (Engineering and Administrative Data Acquisition System — Network Management)

**3. INDEX**
